

Angel One SmartAPI Setup Guide

Real Trading ID & Automatic Market Data Connect (Step-by-Step with Real Screens)

⌚ Setup Time: 5 Minutes

🔒 100% Secure & Privacy Protected

⚡ Live Nifty, BankNifty & Stock Option Feed

STEP 1 Sabse Pehle Angel One Account Se Login Karein

Apne Computer ya Mobile browser me official SmartAPI portal open karein:

Official URL: <https://smartapi.angelone.in/publisher-login/v2/login/>

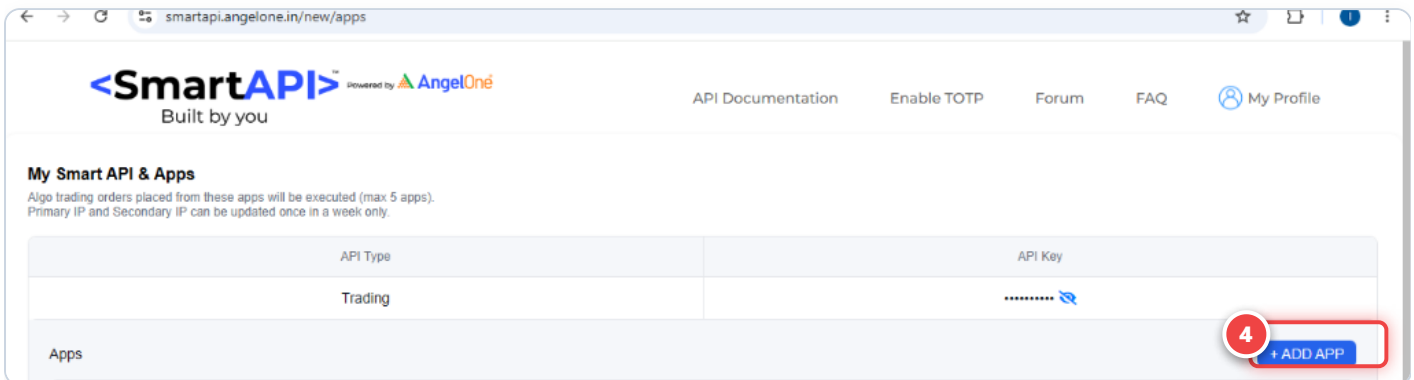

The screenshot shows the SmartAPI login interface. At the top, the URL bar displays 'smartapi.angelone.in/publisher-login/v2/login/'. The main heading is 'Login to SmartAPI App'. Below this, there are three radio buttons for login mode: 'Mobile Number' (selected), 'Client ID', and 'TOTP'. A red circle with the number '1' highlights the 'Mobile Number' option. Below the radio buttons is a text input field labeled 'Mobile Number' with a placeholder 'Enter your Mobile Number'. A red circle with the number '2' highlights this input field. Below the input field is a large grey button labeled 'SEND OTP'. A red circle with the number '3' highlights this button. At the bottom of the form, there are two links: 'View SmartAPI T&C' and 'Create a Free Demat Account to get started'.

- 1 Login Mode Chunein:** Yahan "**Mobile Number**" ya "**Client ID**" select karein.
- 2 Details Enter Karein:** Apna registered Mobile Number ya Angel One Client ID daalein.
- 3 SEND OTP:** Button par click karein aur SMS me aane wala OTP enter karke login proceed karein.

STEP 2 Dashboard Par "+ ADD APP" Button Par Click Karein

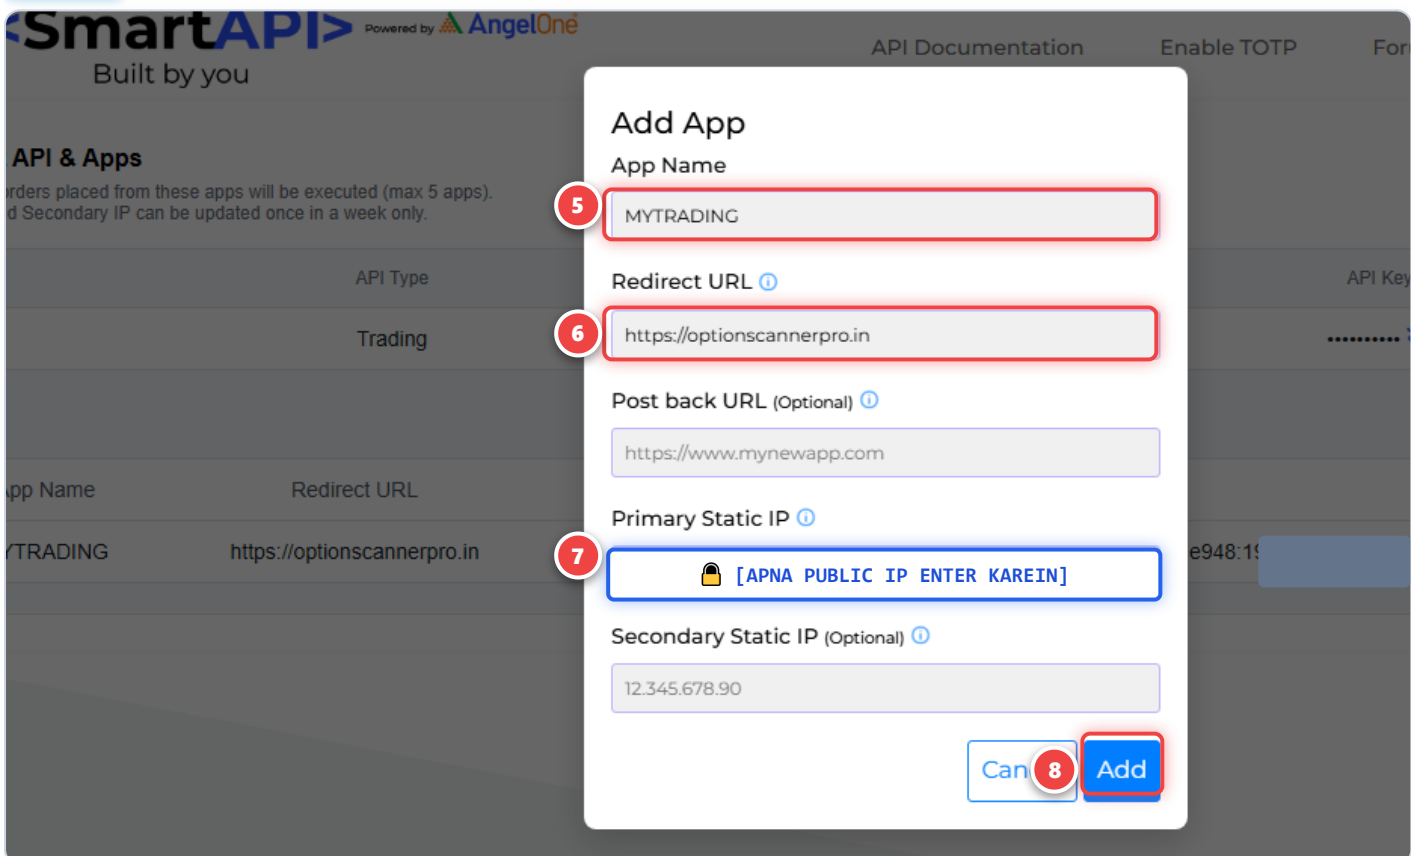

Login hote hi SmartAPI Apps list open hogi: smartapi.angelone.in/new/apps

Screen ke bottom-right me blue color ka "+ ADD APP" button dikhega.

4 "+ ADD APP" Par Click Karein: Is button ko click karte hi app details bharne ka popup form open ho jayega.

STEP 3 Add App Form Ko Same To Same Fill Karein

- 5 **App Name:** Yahan **MYTRADING** ya **OptionScannerPro** likhein.
- 6 **Redirect URL:** Exactly likhein: <https://optionscannerpro.in>
- 7 **Primary Static IP:** Agle page par diye gaye 1-click link se apna IP copy karke paste karein.
- 8 **Click Add:** Form bharne ke baad blue color ke "Add" button par click karein.

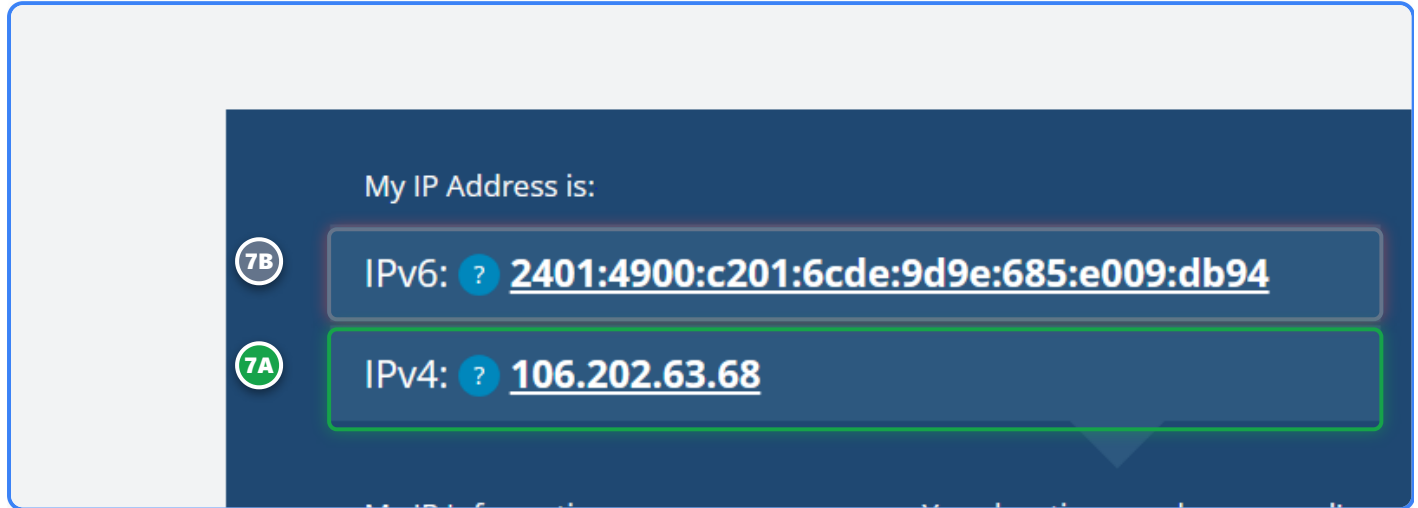

IP GUIDE 1-Click Me Apna IP Pata Karein Aur Sahi Box Me Dalein

Agar aapko apna IP nahi pata, toh niche diye gaye blue button par click karein:

 1-Click Link: Apna IP Pata Karne Ke Liye Yahan Click Karein:
Yeh official safe IP check tool hai: <https://whatismyipaddress.com/>

 **Check My IP (1-Click)**

Link Khulne Ke Baad Screen Par Aisa Dikhai Dega:

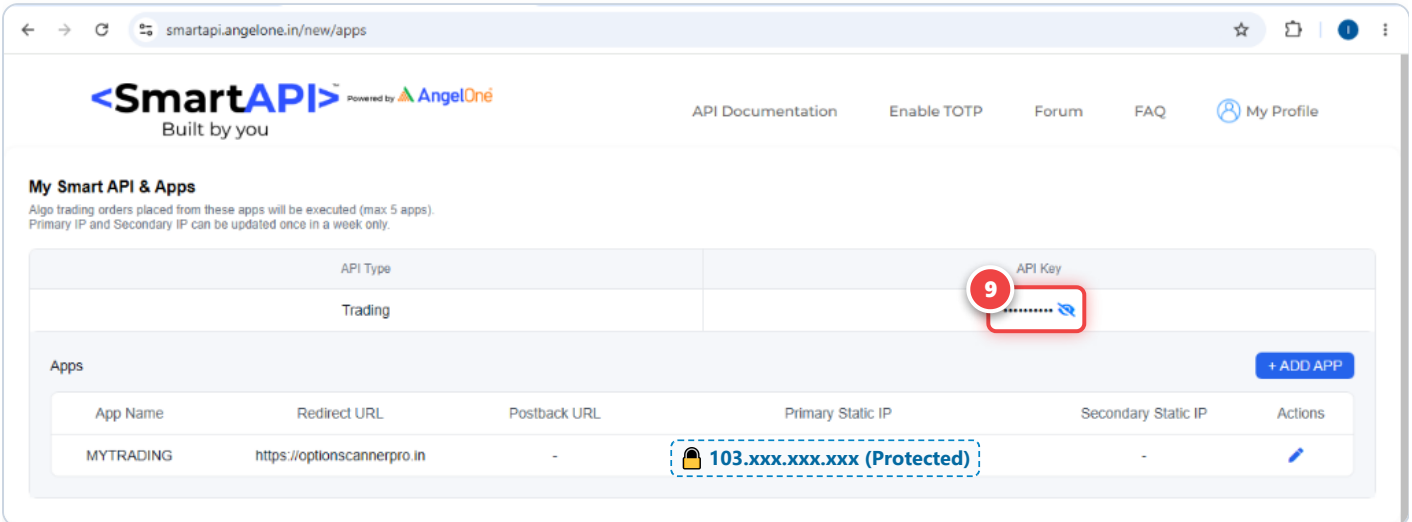

Kis Me Kon Sa Number Dalna Hai? (Clear Chart):

Screen Par Kya Likha Hai?	Angel One Me Kahan Dalna Hai?	Kya Yeh Zaroori Hai?
[7A] IPv4 Number (Jaise: 106.202.63.68)	Primary Static IP box me paste karein	 Sabse Best & Zaroori Is number se SmartAPI turant connect hoti hai.
[7B] IPv6 Number (Jaise: 2401:4900:...db94)	Secondary Static IP box me paste kar sakte hain	 Optional (Marzi Hai) Chahein toh dalein ya is box ko khaali chhod dein.

 **Simple Niyam:** Sirf **IPv4** (chhota 4-ank wala number) copy karke **Primary Static IP** me daal dein, aapka app 100% chal jayega!

STEP 4 App Ban Gaya! Ab API Key Copy Karein

"Add" click karte hi aapka naya app table me ban kar aa jayega. Upar right side me **API Key** ke aage Eye icon (👁️) par click karein.

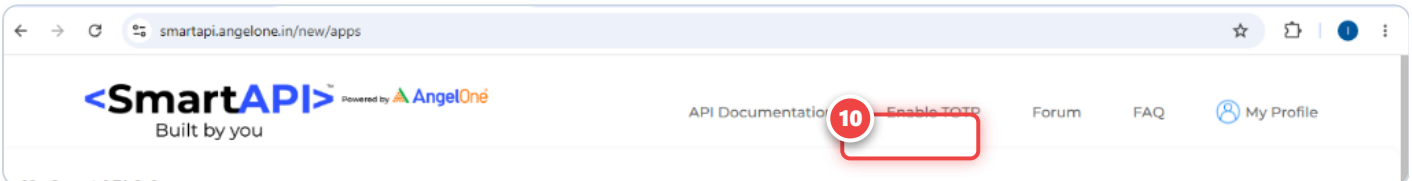

The screenshot shows the SmartAPI web interface. At the top, there's a navigation bar with links for API Documentation, Enable TOTP, Forum, FAQ, and My Profile. Below this, the 'My Smart API & Apps' section is visible. It contains a table with columns for API Type, API Key, and Apps. The API Key is currently hidden with a red box and a red circle labeled '9' indicating the eye icon to be clicked. Below the API Key, there's a table of Apps with columns for App Name, Redirect URL, Postback URL, Primary Static IP, Secondary Static IP, and Actions. The first app listed is 'MYTRADING' with a Redirect URL of 'https://optionscannerpro.in' and a Primary Static IP of '103.xxx.xxx.xxx (Protected)'.

9 API Key Copy Karein: Eye icon (👁️) par click karte hi aapki **API Key** show ho jayegi. Ise copy karke Notepad me save kar lein.

STEP 5 16-Digit Code Ke Liye "Enable TOTP" Par Click Karein

Ab screen ke top navigation bar me **"Enable TOTP"** link par click karein:

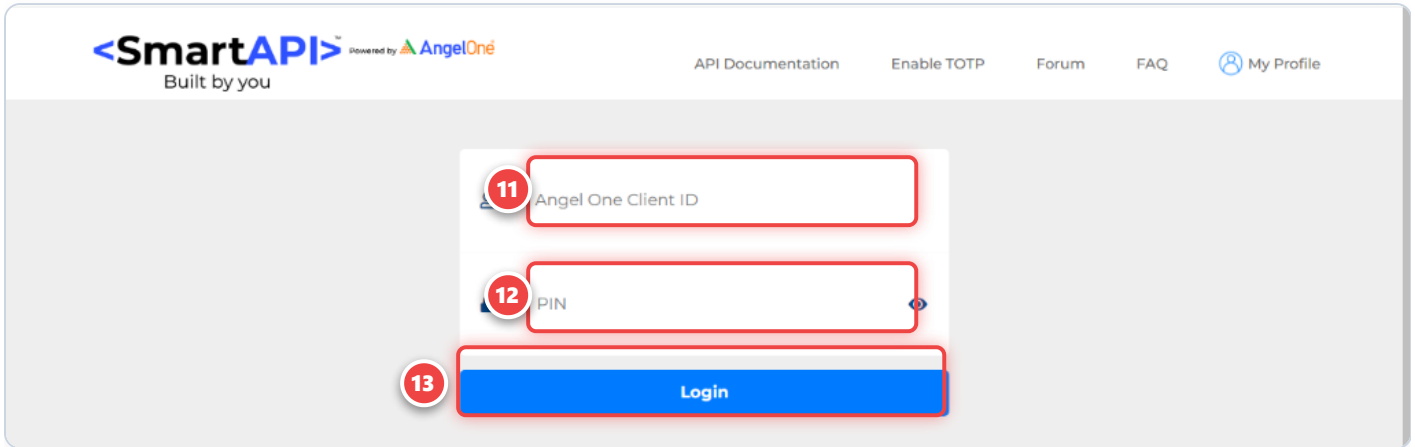

The screenshot shows the SmartAPI web interface. At the top, there's a navigation bar with links for API Documentation, Enable TOTP, Forum, FAQ, and My Profile. The 'Enable TOTP' link is highlighted with a red box and a red circle labeled '10'.

10 "Enable TOTP" Par Click Karein: Top navigation bar me diye gaye Enable TOTP link par click karein.

TOTP Kyo Zaroori Hai? Angel One automated login me bina bar-bar mobile par SMS OTP mangaye direct connection ke liye 16-digit TOTP key zaroori hoti hai.

STEP 6 Client ID Aur 4-Digit PIN Daal Kar Login Karein

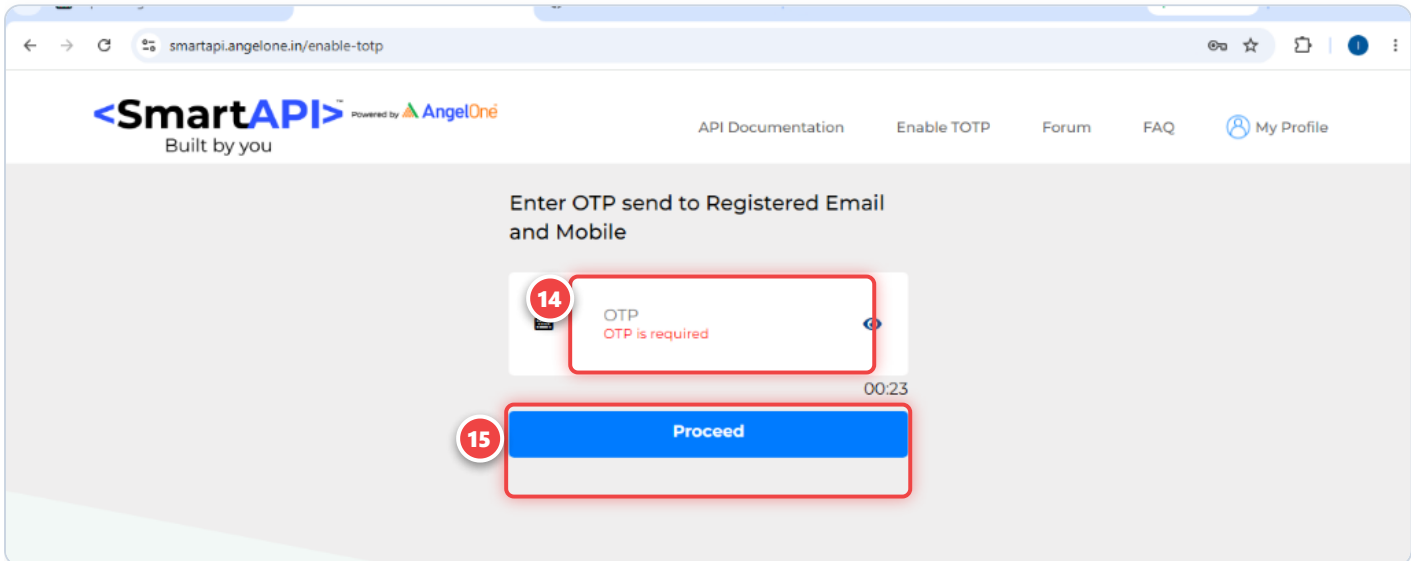

"Enable TOTP" click karte hi yeh login screen open hogi:

- 11 Angel One Client ID:** Apna Angel One user ID daalein (jaise: G53589).
- 12 PIN:** Apna 4-digit security PIN enter karein.
- 13 Login:** Blue color ke Login button par click karein.

STEP 7 Mobile & Email Par Aaya Hua OTP Enter Karein

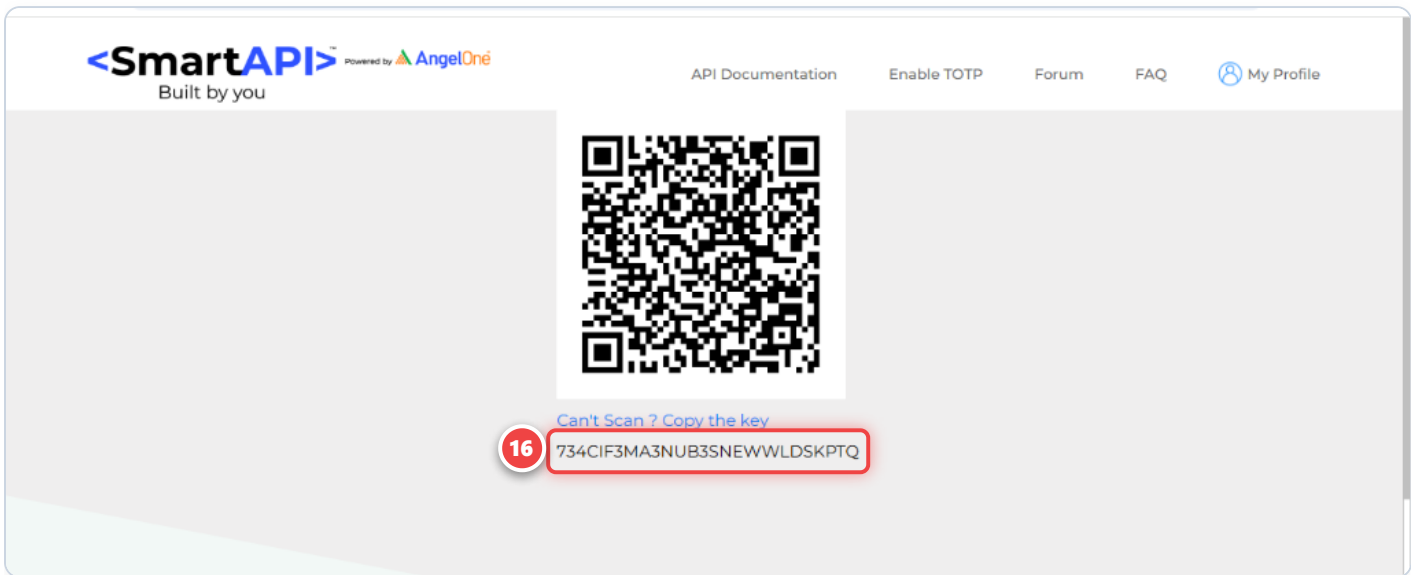

Login par click karte hi aapke registered Mobile aur Email par OTP send hoga:

- 14 OTP Enter Karein:** SMS ya Email me aaya 6-digit OTP yahan fill karein.
- 15 Proceed:** Blue button "Proceed" par click karein.

STEP 8 16-Digit Ka Secret Code Copy Karke Save Karein

OTP submit karte hi screen par **QR Code** aur niche **16-Digit Secret Key** dikhegi:

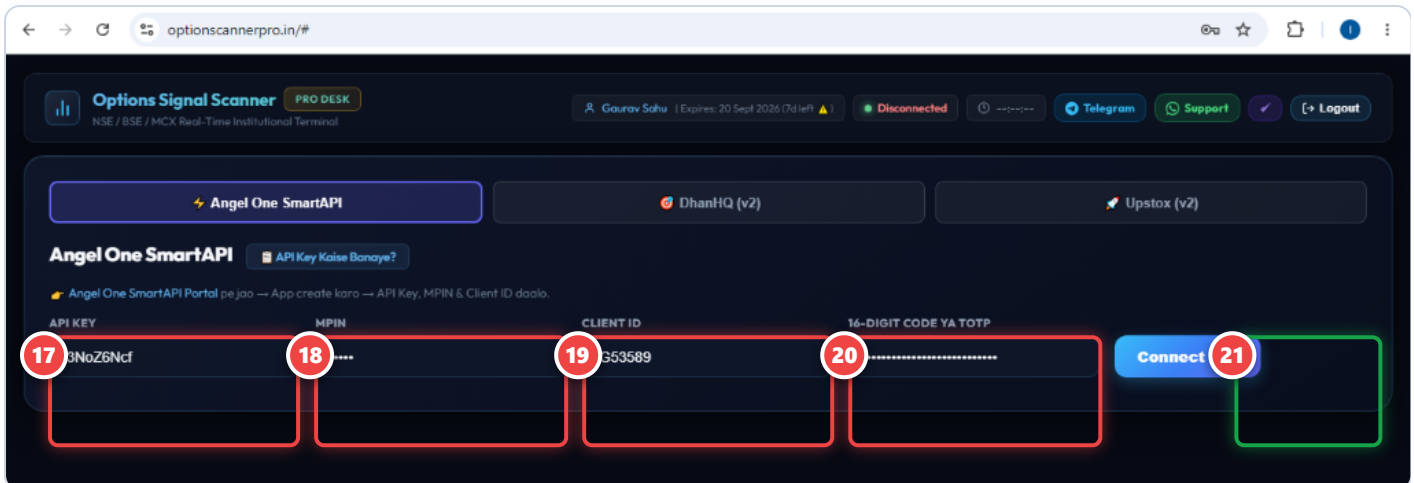

16 Secret Code Copy Karein: "Can't Scan ? Copy the key" ke niche jo 16 ya 26 akshar ka text code (jaise: 734CIF3MA3NUB3SNEWWLDKPTQ) likha hai, **use copy karke save kar lein!**

⚠ Sabse Important Step: Yeh 16-digit ka code hi software me automatic secure login generate karta hai. Is code ko copy karke Notepad me save kar lein.

📱 Optional Tip: Chahein toh Google Authenticator ya Microsoft Authenticator app se is QR code ko scan bhi kar sakte hain.

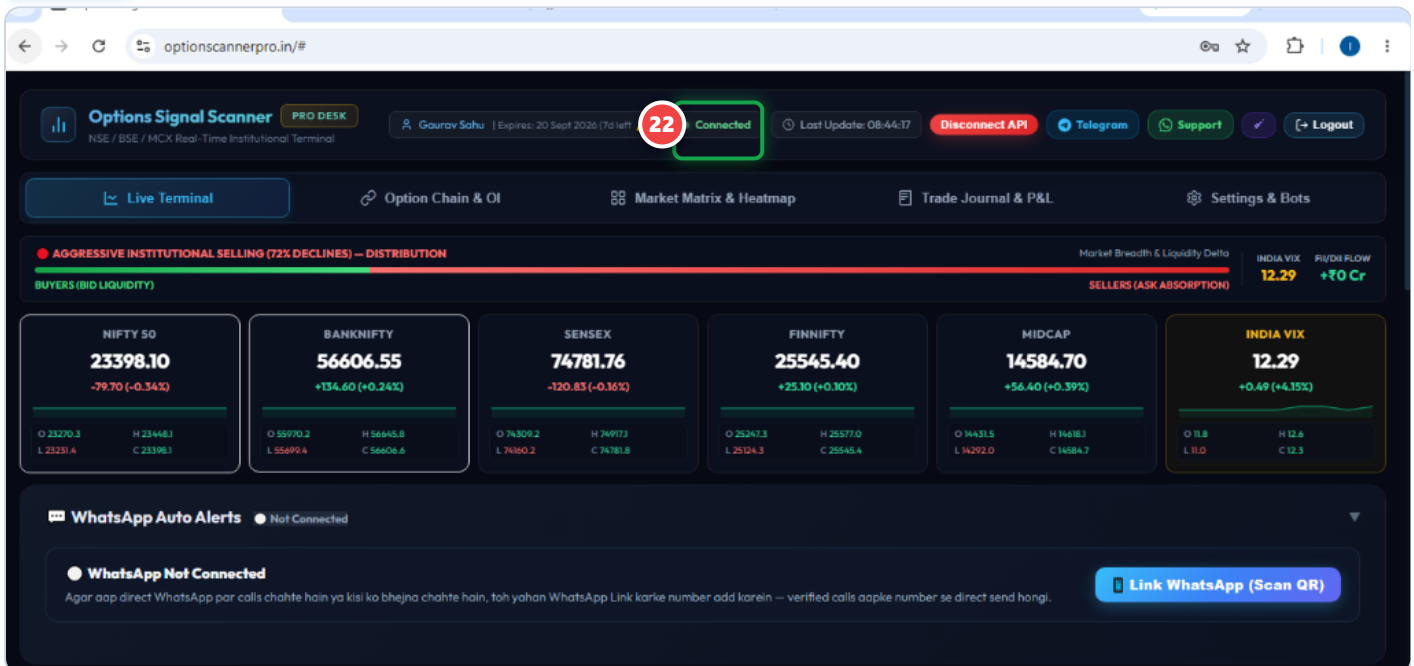

STEP 9 Option Scanner Pro Me Details Daal Kar Connect Karein

Ab apne **Option Scanner Pro** website (<https://optionscannerpro.in/>) me Angel One box me charo details fill karein:

- 17 API KEY:** Step 4 se mili hui API Key paste karein.
- 18 MPIN:** Apna 4-digit Angel One PIN daalein.
- 19 CLIENT ID:** Apna Angel One Client Code daalein (jaise: G53589).
- 20 16-DIGIT CODE YA TOTP:** Step 8 se mila 16-digit Secret Code paste karein.
- 21 Connect API:** Blue button "Connect API" par click karein!

STEP 10 Status "Connected" Ho Jayega Aur Live Terminal Start!

 **Success! Institutional Scanner Is Now Live:** Status **Connected**

ho chuka hai. Nifty 50, BankNifty, Sensex, FinNifty, Midcap aur India VIX ka institutional order flow, Option Chain aur automated buy/sell signals real-time chal rahe hain!
